

Claim 4 (amended). The method as claimed in any of claims 1 or 2, wherein the percentage fraction of the area coated with the hot-melt adhesive composition is between 30% and 99%, preferably from 40% to 95%, with particular preference from 50% to 92%.

A  
Claim 5 (amended). The method as claimed in any of claims 1 or 2, wherein the film of the hot-melt pressure sensitive adhesive composition is extended beyond its yield point by tensile and shear forces which are proportional to the difference in speed between the film of the hot-melt pressure sensitive adhesive composition and the backing material or transfer means, and tears, so that the film formed from the hot-melt adhesive composition has voids.

REMARKS

This Preliminary Amendment is being filed to conform the claims to conventional format.

Favorable action is respectfully solicited.

ADDITIONAL FEE

Please charge any insufficiency of fees, or credit any excess, to Deposit Account No.

14-1263.

Respectfully submitted,

NORRIS, McLAUGHLIN & MARCUS, P.A.
